## PRODUCT

### Natural Pure Phase Hydroxyapatite

General Description – **Nutra-H** is pure phase calcium phosphate supplement derived naturally from marine sources. It is biocompatible and mimics the bone mineral composition.

### Product Highlights

- Naturally processed from marine sources through novel manufacturing technology.
- Microcrystalline white powder with high porosity.
- **\*Particle size in range of 320 um to 370 um.**
- Non toxic and safe.

**\*Particle size can be customized and reduced upto 100 nm.**

### Product Benefits ►

High porosity and micro particle size helps in better absorption.

Contains natural beneficial elements like Magnesium, Iron and Silicon in trace amounts.

Efficient calcium supplement due to high bioavailability.

Product is direct compressible into tablets.

### Applications ►

Dietary calcium supplement.

Dental care applications to prevent caries and sensitivity.

Ideal for use as injectibles for dermal fillers.

Blushers, sunscreens and cosmetic creams
